

I have some "other" news (that means it's not good or bad – just other). The Social Center has had a complete failure of its audio/visual equipment and we do not yet know when repairs will be made. So Richard and Karen Todd would not have microphones, projector, or screen for their presentation to the Aviation Club on Thursday. Therefore, we have decided to **cancel the meeting on Thursday and reschedule it for the following Thursday, January 28<sup>th</sup>**. You will still have the option of attending a 1:00pm session or a 2:30pm session on that day. No advance signup is necessary, but if you'll RSVP to this email and let me know which session you expect to attend, it would be helpful in our planning for seating.

Please make a note on your calendar of the change and pass the word around as much as possible. Thanks for your understanding and I hope you'll be able to come!

Our next Aviation Club is this week – Thursday, January 21st, in the Social Center. You may choose to attend either the 1:00pm session or the 2:30pm session. (They are both the same.) Richard and Karen Todd (residents of Sand Dollar) will be speaking on Aviation Logistics for Humanitarian Relief Worldwide. Advanced signup is not required. Please wear your masks. Following disasters such as earthquakes, tsunamis, hurricanes, war or pandemics, people are often left in desperate need of food, water, shelter or medical aid. Richard and Karen work with Samaritan's Purse in providing humanitarian relief in the midst of these terrible conditions. Aircraft are critically important in quickly getting supplies and aid to the people and places where it is needed. Having served in many countries and even NY USA during the Covid-19 pandemic, the Todds will share their stories of how it gets done. You'll find their work amazing. You can see the SPTV interview about this meeting by clicking [here](#), going to the video for last Thursday, and then moving the slider to minute 8:39. Note: The Annual Auxiliary meeting is scheduled for 2:00pm in the Village Church. We will end our first Aviation Club meeting at 1:50pm to allow anyone who would like to leave to do so. We look forward to this first meeting since last February and hope you all can attend. See you there! Jo
